

## On the Subject of Switches

*A yes or no choice isn't too bad. Unfortunately you have to make five of them and any of them could be your last.*

Switches need to be flipped to match the lit indicators either above or below them.

Avoid the following switch states:

Goal is to put all switches down, then switch them up to make them match the lights.

Switches are numbered from left to right.

Left side -

Switches that are up or lights that are up.

Right side -

Read left to right, the order of switches to make them all down.

Read right to left, the order of switches to make them match the lights.
