

On the Subject of Switches

A yes or no choice isn't too bad. Unfortunately you have to make five of them and any of them could be your last.

Switches need to be flipped to match the lit indicators either above or below them.

Avoid the following switch states:

Goal is to put all switches down, then switch them up to make them match the lights.

Switches are numbered from left to right.

Left side -
Switches that are up or lights that are up.

Right side -
Read left to right, the order of switches to make them all down.

Read right to left, the order of switches to make them match the lights.
